Staff Support

Breast Cancer Awareness

During the month of October, Consumers had the privilege of showing support for those suffering from breast cancer.

In recent years statistic shows that 186,467 have been diagnosed with breast cancer. Of that number, 41,116 women have died from this disease.

Although any woman (and in rare cases, men) are susceptible to contracting breast cancer, scientist have figure our way to lower the risk of falling prey to this disease.. Just to name a few:

- Maintain a healthy weight.
- Limit the amount of alcohol that you drink
- Avoid using hormone replacement therapy (HRT), or find out the risks and benefits of HRT and if it is right for you.
- Remain physically active by getting regular exercise.

- ⇒ Refrain from opening suspicious emails– Hackers can pose as someone you may know to try to gain private information. If you are not expecting a certain type of email, DO NOT OPEN IT!
- ⇒ Be careful of social media– Don't upload any private information you don't want public.

Halloween At Consumers
